Education

Reva University, Bangalore

Bachelor of Technology - Computer Science and Information Technology

2021 – 2025

CGPA:9.21

Experience

Unisys

Oct 2024 - Present

Automation Intern

- **Tech Stack:** Ansible, Python, Puppet, Foreman, Powershell
- Automated the download of multiple browser executables across 100+ servers, reducing manual effort by 90% using Python and Foreman.
- Maintained and optimized server repositories, improving deployment speed through enhanced automation workflows.
- Managed 100+ Azure VMs, achieving 99.9% uptime and optimizing resource usage to cut costs.

Projects

Code2Cloud Portfolio | GitHub [🔗](#) | *ReactJS, Tailwind CSS*

July 2025

- Built a personal portfolio using React, containerized with Docker.
- Deployed to Azure using Terraform and GitHub Actions for CI/CD.
- Used Docker Hub as the image registry for Azure App Service.

Elite Chess | Live [🔗](#) | GitHub [🔗](#) | *ReactJS, Tailwind CSS, Chess.js, react-chessboard*

January 2024

- **Elite Chess Platform:** Built using React.js, chess.js, and react-chessboard.
- **Diverse Game play Modes:** Choose from classic matches, challenge computer opponents, or engage in real-time multiplayer battles
- **Powered by Firebase:** Seamlessly experience real-time multiplayer matches.
- **Strategic Depth:** Test your strategic prowess and chess skills in various game play modes.

Stock Street | Live [🔗](#) | GitHub [🔗](#) | *HTML, CSS, JavaScript*

November 2023

- Designed and developed a stock website using HTML, CSS, and JavaScript
- It featuring real-time **BSE** stock data visualization through API integration, providing users with interactive charts for informed decision-making
- It helps users to explore **trending terms** and make informed investment decisions.
- Implemented a feature allowing users to view the **top trending stocks** of the day, enabling informed investment decisions based on real-time market trends.

Skills

Languages: C, C++, JavaScript, Python, SQL

Frameworks & Database: HTML, CSS, ReactJS, Tailwind CSS

Developer Tools: GCP, Azure, Git, GitHub, Linux, Ansible, Puppet, Foreman

Interpersonal Skills: Teamwork, Problem-Solving, Adaptability, Decision-Making

Certifications

- Microsoft Certified: Azure Fundamentals [🔗](#)
- GITHUB Foundation [🔗](#)
- META Introduction to Front-End Development [🔗](#)
- GCP Associate Cloud Engineer - Google Cloud Course Certification [🔗](#)

Achievements

- Participated in Smart India Hackathon 2023
- Participated in Google cloud innovator program
- Got skill badge form google cloud
